## INTRODUCTION

MCT Training College is committed to minimizing waste generation and reducing environmental deterioration and pollution. We aim to provide a fresh and eco-friendly environment for all members of our institution. This Waste Management Policy is based on the core principles of waste management, which include reducing, reusing, recycling, and recovering waste products. All individuals within the college are encouraged to reduce waste creation, and the institution has established a dedicated Waste Management Cell to oversee these efforts.

## POLICY GUIDELINES

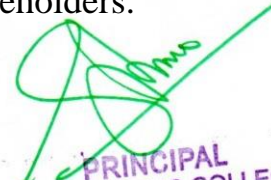

- The college's Waste Management Policy is guided by the following principles:
- Enhancing environmental consciousness among students and staff:
- Preventing pollution and minimizing waste generation.
- Taking mitigation measures to reduce waste.
- Promoting green practices and sustainable growth.

## OBJECTIVES

The objectives of the Waste Management Policy are as follows:

1. To minimize the generation of all types of waste within the campus.
2. To fulfill the duties assigned by the Waste Management Cell as per the duty chart.
3. To promote environmental awareness among all stakeholders.

## ORGANIZATION AND MANAGEMENT

The Waste Management Cell, headed by the Principal and comprising members of the teaching and non-teaching staff as well as students, is responsible for overseeing waste management efforts at MCT Training College. This cell focuses on raising environmental awareness, implementing mitigation measures, and promoting sustainable practices throughout the institution.

## ACTION PLANS

MCT Training College has adopted specific action plans for managing various types of waste:

### a. *Paper Waste*

Implement paper-saving initiatives.

Encourage digital documentation and communication.

Promote double-sided printing.

### b. *Solid Waste*

Implement waste segregation at source.

Create collection points for biodegradable, non-biodegradable, and e-waste.

Utilize vermicomposting for biodegradable waste.

Establish a duty chart for managing food waste.

Encourage projects related to sustainable development among students.

c. ***Non-Biodegradable Waste***

Hand over non-biodegradable waste to scrap dealers for recycling.

Promote reusable glasses and cloth bags.

Prohibit flex boards and encourage digital displays.

Minimize plastic usage for student projects and food containers.

d. ***Liquid Waste***

Utilize hand washing water for plant irrigation.

e. ***E-waste***

Exhibit historical electronic devices in the heritage corner.

**Conclusion**

MCT Training College is committed to maintaining a clean, eco-friendly campus through the effective implementation of this Waste Management Policy. We believe that by minimizing waste generation and promoting sustainable practices, we can contribute to a healthier environment and inspire environmental awareness among all members of our institution. Together, we can make a significant impact on waste reduction and sustainable growth.

## NOTICE

As you know the college has been declared as plastic waste free campus very earlier itself.

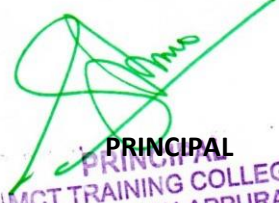

It has been informed that you are responsible to keep the campus clean and follow the given practices.

1. As part of the waste management policy, segregate the wastes by putting it in the respective baskets.
2. E waste should be put in the red basket provided in the class room.

Expecting your whole-hearted cooperation to keep the campus clean

## NOTICE

Date: 21/10/2022

Dear Students and Staff,

In our commitment to creating a sustainable and eco-friendly campus environment, MCT Training College urges all students and staff to actively participate in minimizing plastic waste on campus. It is believed that small individual efforts can collectively make a significant impact.

To contribute to this initiative, it is kindly requested to adhere to the following guidelines:

**Display Boards for Programs:** Avoid the use of single-use paper and plastic materials for program displays. Opt for reusable and sustainable alternatives. The college encourages the use of display boards that can be used repeatedly for various events.

**Reusable Glass and Plates:** In an effort to reduce disposable plastic waste, please make use of reusable glasses and plates during events, seminars and gatherings. This simple switch can significantly reduce our environmental footprint.

**Proper Waste Disposal:** Dispose of waste responsibly by using the designated waste baskets for plastic and other recyclables. Ensure that you segregate waste correctly to facilitate recycling efforts.

Your cooperation is essential in fostering a green and sustainable campus for future generations.
